(57) Abstract :

The present invention provides a web-based portal designed to simplify and automate the application process for Persons with Disabilities under the ADIP Scheme. The portal offers an accessible, transparent, and user-friendly interface for PWDs to register, upload documents, and track their application status. It integrates secure authentication, real-time notifications, and government database validation to ensure efficiency and accuracy. By modernizing the registration process, the invention enhances service delivery, reduces administrative burdens, and improves accessibility for PWDs across India. Figure 1
